---

Worked with DSHS... they have filed each year, but 2012 (not on eplan) was the first year they filed for the ammonium nitrate...

Steve,

I actually checked E-Plan while the fire was burning, and a tier II form had been filed in 2012. Interestingly, It didnt list ammonium nitrate. RMP was also there, but I don't remember if ammonium nitrate is listed in CAA or not. Might be worth looking into.

Jim.
